Product/Process Change Notice

Jetson TX1 and Jetson TX2

Update Japan Ministry of Information and Communication (MIC) Type Certification Number

January 14, 2020 | PCN205103

Revision History

V1	September 11, 2018	Issued PCN about updated MIC Type Certification Number on TX1 and TX2 labels.
V2	January 14, 2020	Corrected the Revised label images on page 3. In V1 of this PCN, each image correctly showed the updated MIC Type Certification Number, but incorrectly did not show that the label's Part Number was also updated. The corrected images now include the updated label Part Numbers.

Product or Process Change Notification

PCN Title:

Update of Japanese Ministry of Information and Communication (MIC) Type Certification Number

Notification Date	September, 2018	**Projected First Ship Date for Changed Product**	October, 2018

Proposed Change Information

Description:

NVIDIA Jetson TX1 and Jetson TX2 modules will have a new MIC Type Certification Number.

Reason:

NVIDIA Wi-Fi firmware for Jetson TX1 and Jetson TX2 does not currently enable band W56 in Japan. Initial certification from Japan incorrectly enabled band W56 during compliance testing. NVIDIA has obtained new MIC Type Certification Numbers for these two products which correctly align the official certifications with the already shipping firmware.

Impact (form, fit, function, quality, or reliability):

There is no form, fit, function, quality, or reliability impact to this mistake, but the mismatch may cause products submitted for certification in Japan to be rejected.

Qualification Plan and Data Availability

Qualification Plan:

NVDIA is committed to providing high quality products to our customers. The qualification of this revision adheres to the same stringent standards and procedures as those used for all NVIDIA products.

Projected Qualification Data Availability Date:

n/a

Method of Identifying Changed Product

Method of identifying individual modules with the new MIC number

The MIC number can be seen on the module labels as shown below.

Original Jetson TX1 (P2180) Label  	**Original** Jetson TX2 (P3310) Label Revised Jetson TX1 (P2180) Label  	**Revised** Jetson TX2 (P3310) Label 
Method of identifying shipping cartons that contain modules with the new MIC number

Cartons containing modules with the new MIC number will have a 30mm diameter green label placed on them:

Recommended Action for Customers

Modules with the updated label will begin shipping in October. If product certification is required before this time, overlay stickers can be provided with the new MIC number.
